

M. RAMADHAN TITAN DWI C

Full-Stack Web Developer

Batu, East Java | mcahya830@email.com | +62 852-4833-2087 | [Portofolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Final year Informatics student specializing in Software Engineering with 1+ year of experience in full-stack web development. Skilled in building and deploying web applications using Next.js, NestJS, TypeScript, and PostgreSQL. Experienced in developing secure APIs, managing databases, and deploying applications with Docker and Nginx. Passionate about creating scalable and user-focused digital solutions, with strong problem-solving abilities and a commitment to continuous learning and collaboration.

WORK EXPERIENCE

Full-Stack Developer / DevOps

Taretan Camera, Madura

June 2025 – January 2026

- Developed a full-stack camera rental application using Next.js, NestJS, and PostgreSQL.
- Designed secure RESTful APIs and optimized database management for core application features.
- Deployed and maintained the production environment using Docker, VPS, and Nginx reverse proxy.

Laboratory Assistant

University of Muhammadiyah Malang, Malang

July 2024 – Present

- Conducted practicum sessions and mentored 50+ students in core informatics topics
- Performed code reviews, graded programming assignments, and assisted students in troubleshooting complex code errors.
- Collaborated with lecturers to prepare practical course materials, modules, and laboratory exams.

EDUCATION

Bachelor of Engineering in Informatics Engineering

University of Muhammadiyah Malang, Malang

September 2023 - Present

SKILLS

- Frontend Development: Next.js, React, TypeScript, JavaScript, TanStack Query, Tailwind CSS
- Backend Development: NestJS, RESTful API Development, Node.js
- Databases & Cloud: PostgreSQL, MySQL, Supabase (BaaS), MongoDB
- DevOps & Tools: Docker, Nginx (Reverse Proxy), Vercel, Git & GitHub

CERTIFICATIONS

- IBM SkillsBuild University Education Program (Phase 2) – Hosted by Hacktiv8 Indonesia (May 2026)
- AI-volution: AI for Social Good – Supported by American Spaces & Mereka (February 2025)
- MERN Stack Development Training – Upgrading Event, UMM Informatics Laboratory (2025)
- National Entrepreneurship Training – FES Management x BEM FEB UMM (February 2024)
